What participants thought of our tours

Thoroughly enjoyed my afternoon with Stefano. I had been to Barcelona before so was looking for some out of the way places or hidden gems that I had not seen before and Stefano did not disappoint. Learned a lot, both about composition and how to make better use of my camera. I would highly recommend this tour.

- Janine (Baltimore, USA)

My mother and I spent 4 wonderful hours with Stefano. He started with the basics, finding out our experience level and what we wanted to learn. Not only was he a nice guy who gave us great tour and great instructions, but he also make some wonderful suggestions for the best times to return to certain places of interest.

- Birgit (Amsterdam, The Netherlands)

This photo tour is excellent - would definitely recommend it, very well priced and 3 hours long. Stefano took me to the best places to take great photos and helped me learn more about my camera with lots of tips to make my photos unique and more interesting, he clearly knows lots about photography and even recommended a few places I could visit for the rest of my time in Barcelona.
